

Zeta-V Selected as the Operator of Dalian-Nasscom Partnership Platform

Dalian | Beijing, Dec 21, 2017 - Zeta-V, a New-Age digital orchestration company has announced it has been selected as the operator of Dalian-Nasscom Partnership Platform.

Recently India's National Association of Software and Services Companies (NASSCOM) and China's Dalian city have signed an agreement to set up a platform for partnership between Indian and Chinese IT companies. Pursuant to the MoU signed between NASSCOM and Dalian City government, subsequent discussions at a local level have converged on the idea of setting up the first NASSCOM IT Park in Dalian BEST City. This park will be an exclusive place for interested Indian IT providers, big and small, to start operations and avail of special policy benefits and incentives provided by Dalian BEST City administration. In order to drive the NASSCOM IT Park program, it is agreed to appoint Zeta-V Technology Solutions Ltd., a competent NASSCOM partner with local presence as the Operator.

As part of the overall program, Zeta-V proposes to build a "Sino-Indian Digital Collaboration Plaza" or SIDCOP platform. This is a unique ecosystem methodology designed to automate the requirement to realization (R2R) process on an AI driven digitized platform integrating a global network of solution and service providers.

"We are delighted to play a key role in building this ecosystem of NASSCOM members and Chinese companies to help furthering the Sino-Indian collaboration in the new age technology space," said Sujit Chatterjee, Co-Founder and Director at Zeta-V Technology Solutions.

About Zeta-V Technology Solutions Ltd:

Zeta-V is the New-Age digital orchestration company harnessing the power of an intelligent ecosystem minimizing the gap between idea-generation to value-realization. Under the trend of new technology, in order to help our clients to leverage these technologies to multiply their business value, Zeta-V delivers these values in a unique way by engaging with clients to quickly define solutions leveraging our industry experience and benchmarks; engaging with entire both spectrum of value chain to realize the value for the client and setting up a strong partner ecosystem that is focused on technology solutions. Zeta-V also offers an integrated portfolio of digitally powered advisory, training, sourcing, Zeta-V sso and consortium services according to clients' requirements. These services are supported and delivered through its patented Zeta-Value Multiplier Framework (zVMF) and Intelligent Partner Ecosystem.
